

Tap into Beverages On-Tap from a Quality Kegco Dispense System

G3 Enterprises and Kegco Kegerator Systems have partnered to provide beverage producers the ability to access the beverage on-tap market with petainerKeg™. Kegco units are simple to set up, mobile and provide consistent beverage dispensing at on-premise locations such as winery/brewery tasting rooms, event venues and catering services. Backed by G3 Enterprises' technical services and customer support, producers can get products to market faster and at a reasonable cost. Kegco Kegerators offer a quality-driven commercial dispensing unit that meets the needs for any beverage and any carbonation level. Dispensing a keg and filling a glass just got a little less complicated.

Benefits of Beverages in Kegeators

- Low cost of entry for extended draft tap lines for the on-premise market
- Quicker turnaround to supply filled kegs to market
- Economical use of gas via the short-draw system
- Commercial grade units that are made with top of the line regulators, stainless steel dispensing couplers and faucets

Frequently Asked Questions

- **Where are the Kegco Kegeators assembled and shipped from?**
The Kegco Kegeators are assembled upon order and shipped from San Diego, California direct to the customer's provided location.
- **Do I have the option to choose regulator type and style?**
G3 Enterprises and Kegco have developed 7 custom packages to choose from to help customers determine product dispensing needs.
- **Do I have a choice on how to market my system?**
We can help create a branded marketing wrap to apply to a kegerator unit to enhance customer attraction and increase store impact.
- **When can I expect my delivery?**
Kegs usually take 2-4 weeks to deliver from the time an order is placed. When purchasing a marketing wrap, delivery will be based on when the wrap is approved by customer.
- **Is there a warranty?**
Kegco offers a standard 1-year warranty on parts and service.
